SOLUTION

PRIMERRA

by SPECTRA SOL

Advanced insulation with exceptional thermal protection.

While its applications are versatile, it is most commonly used as high-performance insulation in jackets and pants.

PRIMERRA / Engineered to maintain a stable core body temperature even in extreme cold.

PRIMERRA's outer and inner materials are enhanced with carbon-based antistatic fibers, complemented by a silver lining and high-performance SMC nano xtech.

The thickness and weight of the insulation are adjustable, tailored to specific terrains and operational needs.

Its ultrasonically welded layers are extremely thin yet highly efficient.

Featuring SMC NANO XTECH filling for professional use.

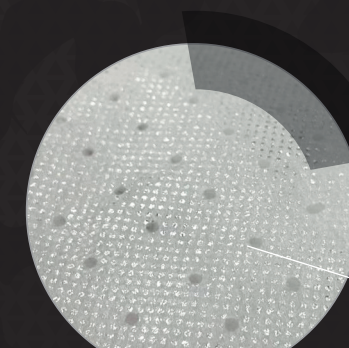

PRIMERRA TYPES

150
220
300

SRX

PRIMERRA / Designed for practicality, PRIMERRA is easy to maintain and built to endure.

PRIMERRA is offered in standard colors, but can be in any color or with any print desired by the customer.

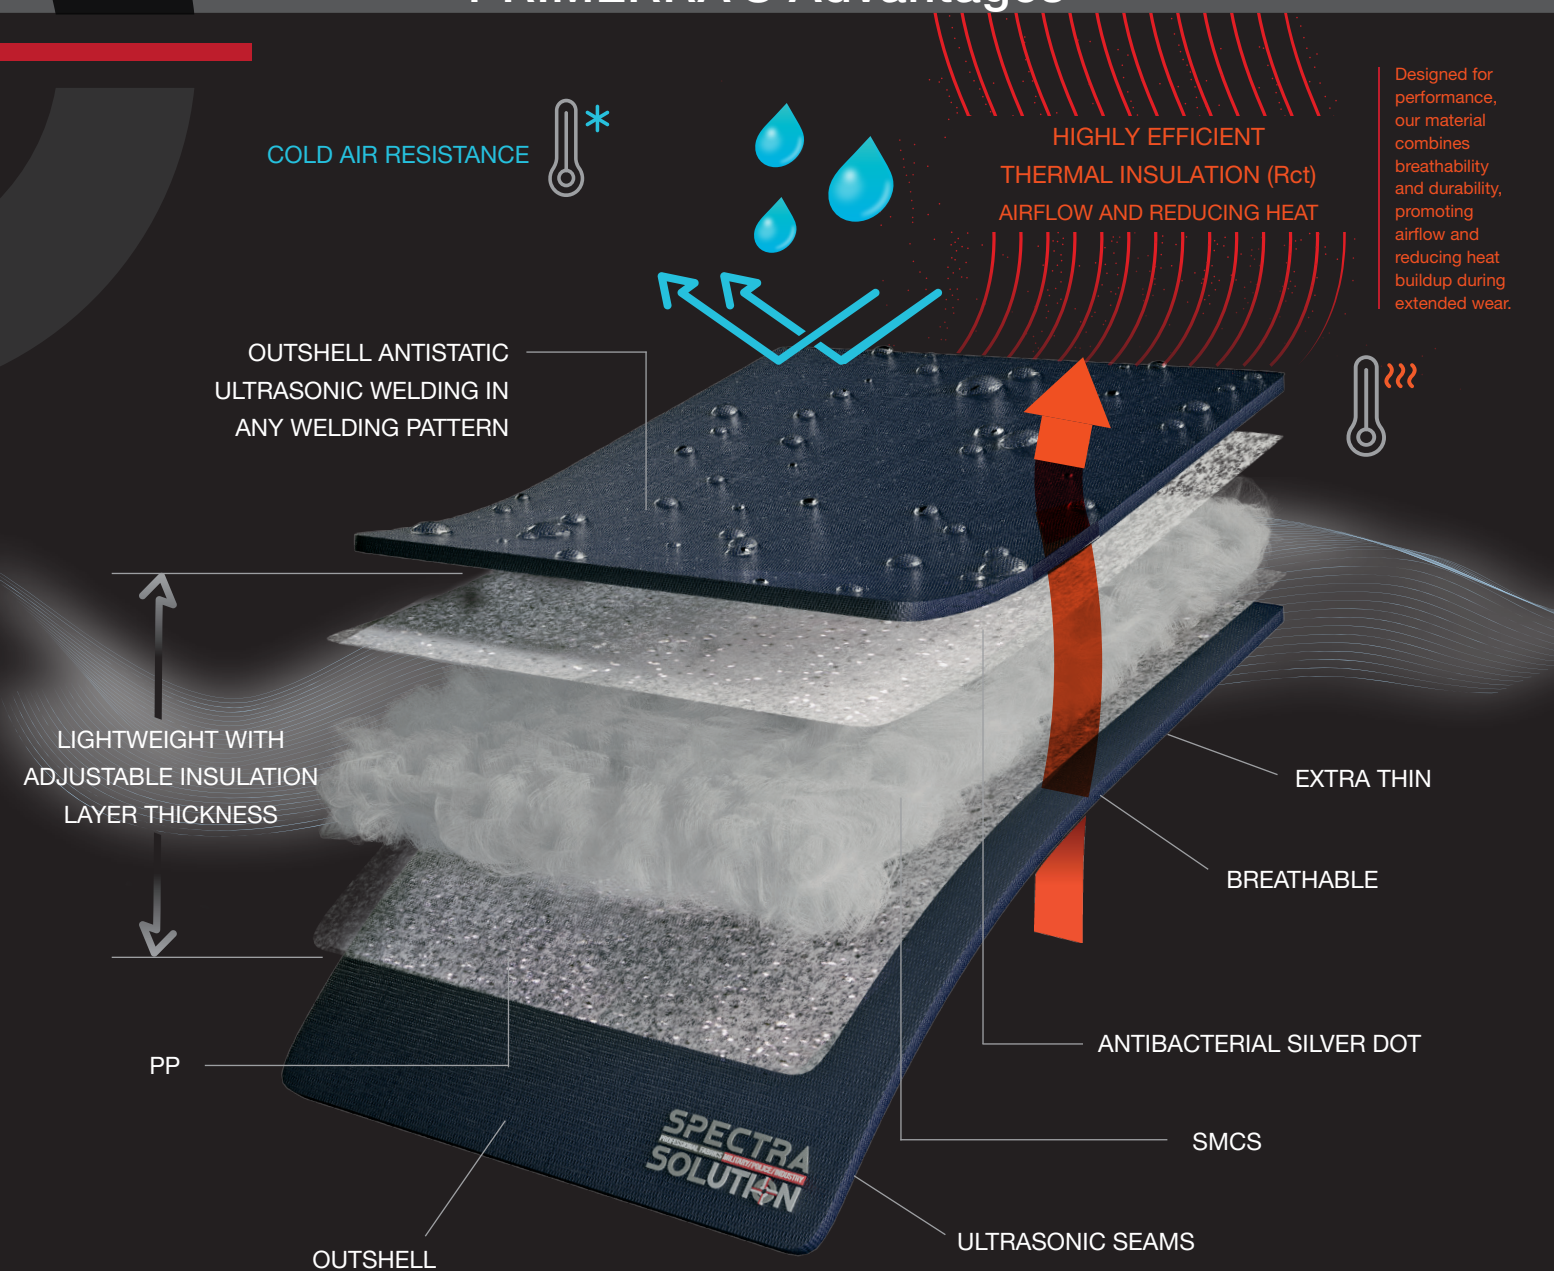

Special attention is paid to color fastness during maintenance, wear and resistance to outdoor climatic conditions.

PRIMERRA STX

PRIMERRA'S Advantages

Designed for performance, our material combines breathability and durability, promoting airflow and reducing heat buildup during extended wear.

- OPTIONAL: FINISHINGS: WR, WP / STRETCH / SMC + GRAPHENE
- COMPETITIVE PRICE
- DURABLE AND HIGHLY RESISTANT TO WEAR AND WASHING
